The Commission, after visiting the poll bound states, had directed the State election machinery to ensure a smooth, effective, accessible and time-bound completion of Special Summary Revision of Electoral Rolls with 01.01.2017 as the qualifying date, so as to ensure that all eligible un-enrolled electors in these States are duly registered. Special efforts were made to identify the critical gaps in the electoral rolls and targeted SVEEP activities were carried out to address them. Further, a comprehensive and systematic nation-wide programme- **National Electoral Roll Purification (NERP)-2016-** was conducted during this year, from March'16 onwards for the overall improvement in the quality and health of the electoral rolls in all the States and UTs. During NERP-2016, concerted steps were taken towards enrolment of all eligible voters, removal of repeated and multiple entries, removal of the entries of dead voters (after due statutory procedure), correction of various types of errors in EPICs and roll data. Wide ranging consultations were also held with the various stakeholders and their valuable suggestions and inputs were duly factored while undertaking the

purification drive. As a result of the efforts under NERP-2016, 25,53,083 logical errors were corrected in the electoral rolls and 29,856 entries of dead/shifted persons and 12,62,000 multiple entries were removed from the rolls after following the prescribed procedure. The **First Level Check of EVMs** has been completed in the presence of representatives of political parties. A **two-stage randomization of EVMs** will also be done. In the first stage, all the EVMs stored in the district storage centre will be randomized by the District Election Officer (DEO) in the presence of the representatives of the recognized political parties for Assembly Constituency-wise allocation. EVMs will be prepared and set for elections after finalization of the contesting candidates. At this stage also, candidates or their agents/representatives will be allowed to check and satisfy themselves in every manner about the error-free functionality of the EVMs. After the EVMs in a constituency are prepared for the poll by the Returning Officer and the ballot units are fitted with ballot papers, the EVMs will again be randomized to decide the actual polling stations in which they will be ultimately used. In the second stage, from this trained manpower, actual polling parties as required shall be formed by random selection software in the presence of General Observers. In the third randomization, the polling stations will be allocated randomly to these polling parties just before the polling party's departure. There shall be such randomization for Police personnel and Home Guards also, who are deployed at the polling stations on the poll day.

The CEO shall impress upon the importance of using eco-friendly and bio-degradable materials for campaign material to various political parties in their respective states/UT and issue necessary instructions in this regard.

(b) Restrictions on the use of loudspeakers:

The Commission is genuinely concerned about the serious 'noise pollution' and great disturbance to the peace and tranquility of the general public by the reckless, widespread and flagrant use of loudspeakers during election canvassing and campaign by candidates, political parties and their agents. In particular, the student community, gets seriously disturbed and adversely impacted as their studies are badly hampered because the loudspeakers start blaring from very early hours in the morning and continue to do so throughout the day and till extremely late hours in the night. Similarly, the aged, the infirm and the sick whether in institutions, hospitals, etc. or at home, are also put to severe discomfort. To prevent such nuisance, the Commission has directed

that the use of public address system or loudspeakers or any sound amplifier, whether fitted on vehicles of any kind whatsoever, or in static position used for public meetings for electioneering purposes, during the entire election period starting from the date of announcement of election and ending with the date of declaration of results, shall not be permitted **at night between 10.00 p.m. and 6.00 a.m.**”

- (c) Also, the Commission solicits the cooperation and collaboration of all the esteemed stakeholders notably the political parties and contesting candidates to **refrain from using loudspeakers and sound amplification in the vicinity of educational institutions** like schools and colleges; hospitals, senior citizens homes, sanatoriums and other facilities tending to the sick, infirm or the needy.

(13) Law And Order, Security Arrangements And Deployment Of Forces

Conduct of elections involves elaborate security management, which includes not just the security of polling personnel, polling stations and polling materials, but also the overall security of the election process. Central Armed Police Forces (CAPFs) are deployed to supplement the local police force in ensuring a peaceful and conducive atmosphere for the smooth conduct of elections in a free, fair and credible manner. In view of the same, the very preparation of poll schedule, sequencing of multi-phase elections and choice of constituencies for each phase had to follow the logic of force availability and force management.

The Commission has taken various measures to ensure free and fair elections by creating a conducive atmosphere in which each elector is able to access the polling station and cast his vote without being obstructed or being unduly influenced/ intimidated by anybody.

Based on the assessment of the ground situation, Central Armed Police Forces (CAPFs) and State Armed Police (SAP) drawn from other States will be deployed during these elections. **CAPFs shall be deployed well in advance for area domination, route marches in vulnerable pockets, point patrolling and other confidence building measures to re-assure and build faith in the minds of the voters**, especially those belonging to the weaker sections, minorities etc. In the insurgency-affected areas, CAPFs shall be inducted well in time for undertaking area familiarization and hand-holding with local forces and all other standard security protocols for movement, enforcement activities etc in these areas will be strictly adhered to. The CAPFs/SAP shall also be **deployed in the Expenditure Sensitive Constituencies and other vulnerable areas and critical polling stations** as per the assessment of ground realities by the CEO of the State, in consultation with the various stakeholders. On the Poll-eve, the CAPFs/SAP shall take position in

and control of the respective polling stations and will be responsible for safeguarding the polling stations and for providing security to the electors and polling personnel on the poll day. Besides, these forces will be used for securing the strong rooms where the EVMs are stored and for securing the counting centers and for other purposes, as required.

The CEOs will ensure a **day-to-day monitoring** of the activities and deployment of the CAPFs/SAP in these States to optimize the usage and effectiveness of these forces for conducting peaceful and transparent elections and inform the Commission periodically. Further, the entire force deployment in the assembly segments shall be under the **oversight of the Central Observers** deputed by the Commission.

The Commission lays a special emphasis on the advance preventive measures to be taken by the District Magistrates and Police authorities to maintain the Law & Order and to create atmosphere conducive for the conduct of free and fair elections. The Commission will be constantly monitoring the ground situation closely and will take appropriate measures to ensure peaceful, free and fair polls in these States.

(14) Protection To Electors Of SC/ST And Other Weaker Sections:

As per Section 3 (1) of Scheduled Castes and Scheduled Tribes (Prevention of Atrocities) Act, 1989 (as amended in 2015), whoever, not being a member of a Scheduled Caste or Scheduled Tribe, forces or intimidates a member of a Scheduled Caste or a Scheduled Tribe not to vote or to vote for a particular candidate or to vote in a manner other than that provided by law, or not to stand as a candidate etc., shall be punishable with imprisonment for a term which shall not be less than six months but which may extend to five years and with fine. The Commission has asked the State Governments to bring these provisions to the notice of all concerned for prompt action. In order to bolster the confidence of the voters hailing from vulnerable sections especially SCs, STs etc and enhance their conviction and faith in the purity and credibility of the poll process, CAPFs/SAP shall be extensively and vigorously utilized in patrolling such areas, conducting route marches and undertaking others necessary confidence building measures under the supervision of the Central Observers.

(15) Election Expenditure Monitoring:

Comprehensive instructions for the purpose of effective monitoring of the election expenditure of the candidates have been issued, which include formation of Flying Squads (FS), Static Surveillance Teams (SST), Video Surveillance Teams (VST), involvement of Investigation Directorates of Income Tax Deptt. etc. State Excise Departments and police authorities have been asked to monitor production, distribution, sale and storage of liquor and other intoxicants (including narcotics) during the election process. The functioning and operations of the Flying Squads/Mobile Teams shall be closely monitored using GPS Tracking.

For greater transparency and for ease of monitoring of Election Expenses, Candidates would be required to open a separate bank account and incur their election expenses from that very account. The Investigation Directorate of Income Tax Dept. has been asked to open Air Intelligence units in the airports of these states and also to gather intelligence and take necessary action against movement of large sum of money in these states.

Some new initiatives taken by the Commission to strengthen the Expenditure Monitoring mechanism are:

- (a) **Modification of the Standard Operating Procedure for Seizure and release of cash:** To avoid inconvenience to common people with genuine need for carrying cash, the Standard Operating Procedure for seizure of cash and release has been modified. An appellate body will be in place in every district to attend to petitions from the public. The Committee will *suo motu* examine each case of seizure by the Police or Flying Squad or Static teams and in suitable cases immediate steps will be taken to release the same.
- (b) **Accounting of the expenditure incurred for campaign vehicles – on the basis of permissions granted:** It came to the notice of the Commission that the candidates take permission from the Returning Officer for use of vehicles for campaign purpose, but some candidates do not show the vehicle hiring charges or fuel expenses in their election expenditure account.
