- (i) The abovementioned EVMs and VVPATs shall be stored in a separate designated warehouse, not below the sub-division headquarters level, with proper security and double lock-system, as is done for strong room having FLC-OK EVMs and VVPATs. The keys shall be kept with the two separate officers, nominated by DEO and shall not be below the rank of Tehsildar/Executive Magistrate.

SOP for Demonstration and Awareness programme on EVM & VVPAT

The following Protocol shall strictly be followed for Demonstration and Awareness programme on EVM & VVPAT.

- Only "FLC OK" units shall be used for demonstration and awareness campaign.
- It shall be ensured that only dummy Ballot Paper is used in the BU.
- The VVPAT shall have dummy symbols which should match with the symbols of the Ballot Paper.
- Demonstration shall not be given in an open area as the VVPATs have to be shielded from direct sunlight.
- During demonstration/awareness, Ballot Unit and VVPAT shall be kept together so that voters can see the printed paper slip in VVPAT.
- Voters should be explained about the process using EVM with VVPAT and also informed about the use of VVPAT with EVM in elections.
- A Register should be maintained to record votes and signatures of all the participants on daily basis in the demonstration process.
- At the end of demonstration, the electronic result of the CU shall be cleared & VVPAT slips shall be removed from the VVPAT drop box. Further, it has to be ensured that on the next day the same process is repeated.
- Proper Security arrangement shall be made for movement of EVMs/VVPATs and awareness centres.

PROBABLE RISKS

- Non-Uploading of 16 candidates (including NOTA) Dummy Symbols in the 1% VVPATs used for testing with 4-BUs having 64 dummy symbols (including NOTA). Hence, before using for awareness purpose, ensure that VVPAT slips print as per dummy ballot papers.
- Irregularity on use of Dummy Symbols. Hence, before using for awareness purpose, ensure that VVPAT slips print as per dummy ballot papers.
- In case of M3 EVMs, M3 VVPATs should be connected at the time of commissioning of the EVMs otherwise EVM will not accept a VVPAT at a later stage. Hence, for awareness purpose candidate setting in M3 EVMs should be done using Ballot Unit and VVPAT.
- Lock paper roll when transporting the VVPAT from one place to another. Otherwise, VVPAT may go into error mode.
- Do not switch on the VVPAT in broad daylight or directly under a bulb or halogen lamp at the time of awareness as the VVPAT may go into error mode. Hence, ensure that awareness on EVM and VVPAT shall be done in shaded/closed area.
- Do not repeatedly switch ON and OFF the VVPAT as it will deplete the battery as well as paper roll.
- Switch OFF the CU when connecting or disconnecting the EVMs/VVPATs and do not pull the cable for disconnecting.
- Non adherence of SOP on Awareness of EVMs and VVPATs.
